Please find below and/or attached an Office communication concerning this application or proceeding.

NOTICE REGARDING DRAWINGS

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because it is determined by the printing department that the drawings submitted 11-21-01 are unprintable due to poor shading and illegible character. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Applicant is given one opportunity to correct the informalities within a two-month time period from the mailing date of this Notice. This time period is not extendable under either 37 CFR 1.126(a) or 1.136(b). Failure to take corrective action within the set period will result in abandonment of the application.

PLEASE RETURN CORRECTED DRAWINGS TO:

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
